

EVERYONE CAN DO MATH

Math Resources

1. Sign up for free drop-in SmartyCats Tutoring and/or do homework in a learning lab
2. Human Resources- Professors, TAs, Math Lab, SmartyCats Tutoring
3. Online- Khan Academy, WolframAlpha, Youtube/edu, Cornell Video
4. Problem Resources- Ask for extra worksheets, get copies of old tests, make copies of homework sheets and do them again at a later date, do the problems in the book
5. Make a set of notecards with formulas and concepts to help memorize
6. Create self-tests

Must-Dos for Math Mastery

1. Do homework as soon after class as you can
2. Do a few problems without your notes and book
3. Do more homework than assigned- as hard as it is

Everyone Can Learn To Do Math Well

1. Establish a solid foundation by previewing before class
2. Listen interactively in class (follow the reasoning)
3. Complete homework immediately after class
4. Write out every step of every problem in a systematic form
5. Self-test after every homework section
6. Take an entire practice test just like an exam
7. Correct returned exams - strive for mastery not just a grade

**Persevere and do
your best!**

**You won't understand
everything instantly.
Keep trying!**
