TO THE PEOPLE OF ANACONDA AND DEER LODGE COUNTY:

We Montanans are involved in a two-year process of reviewing our local governments as required by our State Constitution. Each local government in our state has an elected study commission which must follow procedures enacted by the Legislature. Therefore, there is a study commission for the City of Anaconda and another study commission for Deer Lodge County.

For almost a year, the two study commissions worked separately to fulfill the requirements of the Constitution and the Legislature. Each group studied the present form and powers of its governmental unit. Each member studied the alternative forms made available to local governments by the Constitution and the Legislature. After this complete analysis, the two study commissions met together and each of the ten members independently presented a position paper outlining the alternative form of government which he thought best. These papers concluded unanimously that complete unification of the governments of the City of Anaconda and the County of Deer Lodge is needed. For this reason the two commissions merged into a single study group which has concluded that the following changes are required:

1. Complete unification of the city and the county.
2. Adoption of the Commission-Manager form for the consolidated government.
3. Acquisition of self-government powers.
4. Adoption of a Charter.

Complete unification recognizes that there is one community of interest within Deer Lodge County. Unification promises greater economy, efficiency, and tax and service equity within this community.

These goals can be realized when consolidation is coupled with the Commission-Manager form which combines professional, competent, efficient, administration with responsive and representative leadership.

This form of government is strengthened by the acquisition of self-government powers which allow our community to handle its own problems.

All three of these changes are essential; together they provide a package—the proposed Charter which follows—to deal effectively with the affairs of this community.

TRANSITION SUGGESTIONS

A Charter is intended to be a Constitution which deals with basic aspects of the government. It provides a sound and flexible framework for dealing with local concern. But a Charter is not self-implementing. Successful transition to the new form requires dedication on the part of both old and new officials. Therefore, we recommend that a transition advisory committee be established. This committee should include City of Anaconda Study Commission members, Deer Lodge County Study Commission members, former mayors, former City Council members, and former County Commissioners. This committee will assist the new government officials with the transition period beginning June 2, 1976, and continuing for a period of two (2) years. The transition advisory committee should deal with the following subjects and should provide recommendations useful to the new officials:

1. The Administrative Code shall consist of the rules and procedures for administering the affairs of Anaconda-Deer Lodge County after approval of the elected Commission.
2. The transition advisory committee, working in conjunction with present employees of the merged governments, shall prepare a Personnel Code to be reviewed by the Manager for submission to the elected Commission for their revision and approval. The Personnel Code shall contain the provision stated in Article V, Section 3 of this Charter.
3. The transition advisory committee shall recommend to the Commissioners the combining of, the creation of and the elimination of boards and commissions that it shall deem advisable in the best interests of the combined governments. All city, county or joint city-county boards, agencies and commissions as may exist on the effective date of this Charter shall continue for a period of ninety (90) days during which time the Commission shall determine by ordinance, whether they shall be continued or terminated. In the event the Commission fails to act within the specified time limit, said boards, agencies and commissions, advisory or otherwise, shall cease to exist.
4. The transition advisory committee shall recommend the terms of all board and commission members to the Commission. It is suggested that representation on all boards, agencies and commissions shall give to all districts involved equal representation.
5. Department structure, organization and heads, part of the Administrative Code, shall outline the functions and duties of the various offices and their relationships to each other.

6. Upon approval of the elected Commission, qualifications of appointed officials shall be defined and made part of the Administrative Code or Personnel System.
7. The transition advisory committee shall recommend that salaries shall be raised to the point that they are equal between the present City Police and County Deputies according to seniority, training and experience.
8. The transition advisory committee shall be responsible for preparing recommendations to the new government regarding initial budget matters.
9. The transition advisory committee in consultation with present city and county employees shall define seniority. Wages shall be based on seniority and experience.
10. The transition advisory committee shall recommend to the Commission that zoning and building codes respect the differences in rural and urban life.
11. Present state law requiring county Commissioners to publish minutes of their proceedings and Commission expenditures shall be adhered to.
12. The Commission shall designate priority roads (school bus routes) and streets, especially in winter months for snow removal. As much as possible, employees who have customarily maintained these access routes will be assigned to them.
13. Local government shall provide law enforcement services by the most effective and efficient organizational means available to it. In determining this means, the local government shall acknowledge that the law enforcement organization shall be large enough to be effective but small enough to be responsive to the people. To achieve these goals the transition advisory committee shall recommend a law enforcement commission. This commission shall also act as an appeals and regulatory board for law enforcement employees.
14. It is essential to provide a staff of trained personnel to assure proper operation of medical service. It is proposed that a consolidation of effort in public safety communications be initiated by Anaconda-Deer Lodge County

He is elected by the members of the Commission from his own number for a term established by ordinance.

The Commission may appoint one or more administrative assistants to assist them in the supervision and operation of the local government.

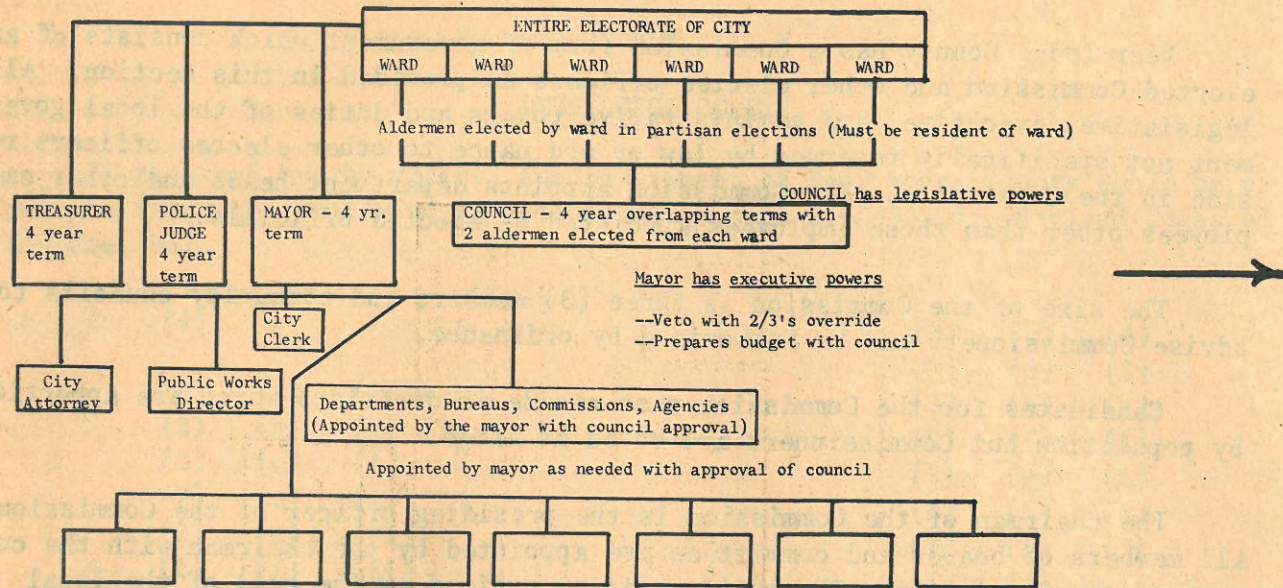

Commission members are elected for overlapping terms of office.

The term of office of the Commissioners is six (6) years. Other elected officials serve four (4) year terms.

Deer Lodge County also has the following elected officials: County Attorney, Sheriff, Clerk and Recorder, Clerk of District Court, Treasurer, Superintendent of Schools, Assessor and Coroner.

SUMMARY

ONE COMMUNITY -- ONE GOVERNMENT

Voter Review allows us, the people of Anaconda-Deer Lodge County, to have a "local constitution". Our Charter gives us great flexibility in both structure and powers to meet the unique needs of our one community. The advantages of consolidation, the Commission-Manager form, self-government powers, and writing a Charter have been documented throughout this report. We have everything to gain -- economy, efficiency, responsiveness, and representation -- in adopting this Charter. Most important, this is our Charter -- it belongs to and has been created by the people of this community acting through their elected study commissions. The final product is strong local government controlled directly by the people.

You are the final judge on June 1, 1976!
